

SERVICE PROPOSAL

RAAK Design — Robrecht Lambrechts

Personal AI OS: Claude Code and Obsidian setup, hands-on onboarding, and optional team expansion and monthly support retainer.

Client	RAAK Design — Robrecht Lambrechts
Date	17 June 2026
Contact	Lucid-Lab — info@lucid-lab.fr
Reference	PROP-2026-012
Validity	30 days from date of issue

By signing this Proposal, the Client fully accepts the offer, enters into a binding Contract, and commits to payment on the terms set out below.

Parties

The Service Provider: Lucid-Lab, simplified joint-stock company (SAS) registered under French law, share capital of 999 euros, registered office: 47 rue Vivienne, 75002 Paris, France, registered under number 104 672 050 with the Paris Trade and Companies Registry (R.C.S. Paris), EU VAT number FR 02 104 672 050, represented by its President, Periscope-X SARL, itself represented by Mr Anthony Poirier, duly authorised.

The Client: RAAK Design, [legal entity to be confirmed], registered office: [address to be confirmed], Belgium, VAT number: [BE VAT number to be confirmed], represented by Mr Robrecht Lambrechts.

Objective

RAAK Design is a product design and engineering studio working with world-class clients including Nike, Sony, Samsonite, and Barco. Across every project, the team produces extensive documentation: briefs, research notes, technical specifications, meeting summaries, client communications, and design rationale. Today, this knowledge is scattered across tools and inboxes, making it slow to retrieve, difficult to build upon, and hard to hand off to collaborators.

The goal of this engagement is to transform the way Robrecht and the RAAK team interact with information and AI. By combining Claude (Anthropic's AI assistant) with Obsidian (a private, local-first knowledge base), Lucid-Lab sets up a Personal AI OS: a structured intelligence layer that ingests existing documents, maintains a living company memory, and lets the team interact with AI in a deeply context-aware way. The result is a system that thinks alongside you rather than in isolation.

Two engagement paths are available: Option A for an individual setup (Robrecht), and Option B for a team rollout (additional seats for RAAK team members). Both paths can be complemented by an optional monthly retainer for ongoing support, new automations, and system maintenance. A Company AI Workshop is also available as an optional add-on for the full team.

Scope of Work

Option A — Individual Setup (Robrecht) · 500 EUR

- Full Claude Code installation and configuration on Robrecht's machine.
- Obsidian vault designed and structured for a product design studio: projects, clients, research, process documentation, and meeting notes.
- Existing company documents ingested, organised, and made searchable within the vault.
- Hands-on onboarding session (remote, 3-4 hours): Jules controls the screen, installs everything live, and walks Robrecht through the complete system.
- 1-2 custom automations built together during the session, tailored to Robrecht's specific workflows and priorities.
- Lucid-Lab Personal OS User Guide (PDF): a reference manual for using, maintaining, and expanding the system independently.

Option B — Team Expansion · 350 EUR per additional seat

- Same setup and onboarding as Option A, adapted to each team member's role and workflow.
- Individual onboarding session per seat: each person gets their own configured environment.
- Shared company vault layer: team members connect to a common knowledge structure.
- Can be added for any number of team members, at any time after Robrecht's initial setup.

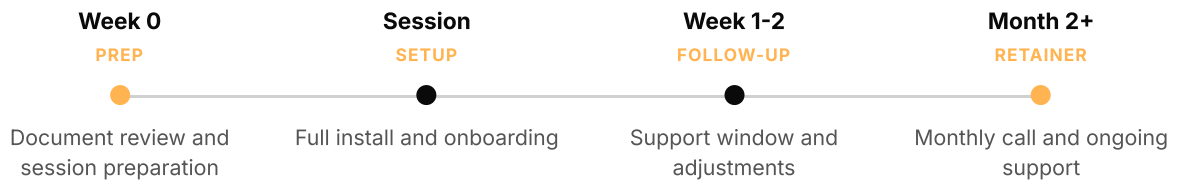

Monthly Retainer (optional) · from 250 EUR / month

- 1 monthly strategy and Q&A call (60 min): review what is working, troubleshoot, and plan next improvements.
- Async support via email: questions and guidance on demand, answered within 48 hours.
- Maintenance of existing automations: updates, fixes, and improvements as the system evolves.
- Hands-on help building new automations as the team's needs grow.
- Individual access: 250 EUR / month. Team access (multiple seats): 300 EUR / month.
- Minimum commitment: 3 months, then month-to-month.

Optional Add-on: Company AI Workshop · 600 EUR

- Half-day workshop for the full RAAK team (up to 8 participants).
- How to use AI effectively in a product design and engineering workflow: research, documentation, briefs, client communications.
- Prompting best practices and how to get consistent, high-quality output from Claude.
- Hands-on exercises tailored to RAAK's real projects and use cases.
- Delivered on a date to be agreed, remote or on-site.

Timeline

Week 0 — Preparation Jules reviews the existing documents and materials RAAK wants to ingest (shared via Google Drive, Dropbox, or transfer). Vault structure and automation ideas are prepared ahead of the session.

Session Day — Full Setup and Onboarding Remote session of 3-4 hours. Jules controls the screen, installs and configures Claude Code and Obsidian live, ingests documents, builds 1-2 automations together with Robrecht, and walks through the complete system.

Week 1-2 — Follow-up Window One-week support window following the session. Questions answered, small adjustments made, and additional team member sessions scheduled if Option B is selected.

Month 2 onward — Retainer (optional) If the retainer is selected: monthly call, async support, automation maintenance, and ongoing guidance as the system and the team's needs evolve.

Deliverables by Option

Option A	Configured Claude Code + Obsidian vault · document ingestion · 1-2 automations · onboarding session · PDF user guide
Option B	Same as Option A per seat · shared company vault layer
Retainer	Monthly 60-min call · async support · automation maintenance · new automation guidance
Workshop	Half-day session for up to 8 people · AI best practices · hands-on exercises

Investment

Individual Setup — Option A (Robrecht)	500.00 EUR excl. VAT · one-time
Additional Seat — Option B (per person)	350.00 EUR excl. VAT · one-time per seat
Monthly Retainer — Individual access	250.00 EUR excl. VAT / month · 3-month minimum
Monthly Retainer — Team access	300.00 EUR excl. VAT / month · 3-month minimum
Company AI Workshop (optional add-on)	600.00 EUR excl. VAT · one-time
VAT	0% — reverse charge, VAT due by recipient (art. 196 VAT Directive 2006/112/CE)
Example A: Robrecht only + 3-month retainer	1,250.00 EUR excl. VAT (500 + 3 × 250)
Example B: Robrecht + 2 seats, no retainer	1,200.00 EUR excl. VAT (500 + 2 × 350)
Example C: Robrecht + 2 seats + 3-month team retainer	2,100.00 EUR excl. VAT (1,200 + 3 × 300)
Payment terms	SEPA bank transfer only — see General Terms and Conditions

Costs Not Included

The fees above cover Lucid-Lab's work exclusively. The following costs remain the Client's direct responsibility, as they depend on actual usage:

- Anthropic API credits for Claude usage (billed directly by Anthropic; indicative cost: approximately 15-30 EUR / month per user for moderate use);
- Obsidian Sync subscription, if multi-device or team sync is desired (approximately 10 EUR / month; optional);
- Any third-party tool subscriptions required for specific automations agreed during the onboarding session;
- Travel and accommodation costs for any in-person session, if requested by the Client (by prior written agreement).

An indicative estimate of these costs can be provided on request, without binding commitment on Lucid-Lab's part.

Payment Terms

Payment method: SEPA bank transfer only. No work is started or delivered until the corresponding payment has been effectively credited to Lucid-Lab's account.

Account holder	Lucid-Lab
IBAN	FR76 2823 3000 0119 9177 3651 869
BIC	REVOFRP2
Bank	Revolut Bank UAB
Payment reference	PROP-2026-012 / RAAK Design

Late Payment Penalties

Any late payment automatically triggers, from the day following the due date:

- late interest at the ECB rate plus 10 percentage points (art. L. 441-10 French Commercial Code);
- statutory flat indemnity of forty (40) euros for collection costs (art. D. 441-5 French Commercial Code);
- contractual flat indemnity of two hundred and fifty (250) euros per overdue invoice.

These penalties are cumulative. If a payment is more than ten (10) days overdue, Lucid-Lab may suspend all Services and declare immediate repayment of all outstanding amounts.

General Terms and Conditions

This Proposal is governed by Lucid-Lab's General Terms and Conditions, available at <https://lucid-lab.fr/cgv> and attached as an annex. The Client acknowledges having read them and accepts them without reservation before signing.

Next Steps

- Confirm the chosen option(s) by signing and returning this Proposal to info@lucid-lab.fr.
- Share the existing documents to be ingested (Google Drive link, Dropbox, or direct file transfer).
- Schedule the onboarding session at a mutually convenient time (remote, approximately 3-4 hours).
- Make the first payment to trigger the start of the engagement.
- For team expansion (Option B): confirm the team members to onboard and their roles.

Contractual Framework

Start of Services: upon signature of this Proposal, transmission of any required access or materials, and effective receipt of the first payment on Lucid-Lab's bank account (IBAN FR76 2823 3000 0119 9177 3651 869, BIC REVOFRP2, Revolut Bank UAB).

Contractual documents provided: (i) this Proposal acting as Order Form, (ii) the Service Contract, (iii) Lucid-Lab's General Terms and Conditions.

Professional liability insurance: Lucid-Lab holds Professional Indemnity Insurance with Hiscox SA (policy RCPLP 3695175450, limit 100,000 EUR per insurance period, worldwide excluding USA/Canada).

Acceptance as Firm Order

The Client declares having read and fully accepts without reservation:

- the scope, deliverables, and timeline described above;
- the pricing structure for the chosen option(s) and the associated payment terms;
- Lucid-Lab's General Terms and Conditions, accessible at lucid-lab.fr/cgv;
- the obligation to make the first payment before any work begins.

Signing this Proposal constitutes full acceptance of the offer, formation of the Contract, and a firm order. It triggers the issuance of a pro forma invoice and the start of Services upon effective receipt of the first payment.

Selected option(s): [to be confirmed by the Client at signature].

Required handwritten note: "Read and approved, firm order — [selected option(s) and total amount]".

☐ **Agreed.** By checking this box and signing below, the Client confirms full agreement with the scope, pricing, and timeline set out in this Proposal.

Signatures

Each signature must be preceded by the handwritten note:

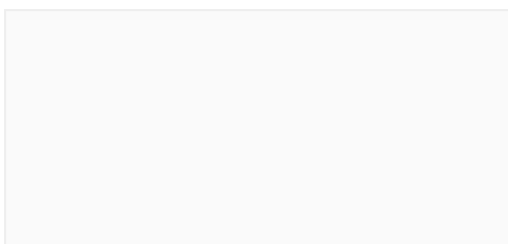

"Read and approved, firm order — [selected option(s) and total amount]"
